Correction to “A theorem on finite projective planes of odd order and an application to planes of order 15”

By

VLADO CIGIĆ

In the formulation of the Theorem 1 of the above-mentioned paper, appeared in Arch. Math. **41**, 280–288 (1983), there was a mistake, which can be easily corrected. Instead of “*p an odd prime*” it should read “*where $p > 3$ is a prime number.*”
