Erratum

Scott, M.P. and Gladstein, D.S. (1993) Calculating males? An empirical and theoretical examination of the duration of paternal care in burying beetles. *Evol Ecol.* 7, 362–378.

We regret that part of the footnote of Table 1 was omitted in the above paper. The entire footnote should have read:

Results of analyses of variance (Abstat) are shown.

*Significant at 0.05 with sequential Bonferroni corrections (Rice, 1989).

***Significant at 0.001 with sequential Bonferroni corrections (Rice, 1989).

See text for results of Scheffé tests for groups with significant differences.

A subset of these data from Scott (1989).
