

CHRONICLES

WEST GERMANY

The Heidelberg University Library is attempting to establish a comprehensive inventory of the complete correspondence of Wilhelm von Humboldt through its Wilhelm von Humboldt Letter Archive. Its goal is to publish a catalogue of all letters by and to Wilhelm von Humboldt. The material would include photostats of all the available letters and would thus form a new basis for Humboldt scholarship and for a possible critical edition of the correspondence, such as was originally planned as part of the *Gesammelte Schriften* of von Humboldt's works sponsored by the Prussian Academy of Sciences but which never was published. Collectors and scholars who have letters or information relevant to the project are requested to contact : Wilhelm von Humboldt-Briefarchiv (att. Dr. Philip Mattson), D-6 Heidelberg, Karlstr. 16, West Germany.

ERRATA

Two printing errors in this journal Volume 7, Number 3 have been called to our attention.

P. 260, line 5 should read : "The predicate 'is true' fundamentally designates a word-word relationship..."

P. 265, lines 24-25 should read : "For although Peirce held that the predicate 'is true' primarily designates a word-word relationship..."
