Trinity College, Dublin, Ireland

Z. Phys. B – Condensed Matter 61, 357–366 (1985)

Confused notation makes it difficult to follow our analysis. In particular,

- (i) in Eqs. (2.10)–(2.14), γ is to be replaced with 4γ ;
- (ii) Eq. (2.12) should read

$$U_{\omega}(t) = e^{-\beta t/2} \left[\cos \Omega t + \frac{\beta}{2\Omega} \sin \Omega t \right].$$

As a consequence of (i), the fit in Fig. 3 is also affected – see Chem. Phys. Lett. **129**, 375 (1986) for a revised version.
