Errata

The following are corrections for "An Unorthodox Proposal for Funding Primary Prevention" by Thomas P. Gullotta (The Journal of Primary Prevention, Volume 2, No. 1, 1981).

- p. 17 Cromwell (1978), page cited should be 161 not 61.
  - p. 18 Cost of Alcoholism to society is estimated to be 42 billion dollars per year not 432 billion.
  - p. 19 "as with lawyers who are *now* specializing"
-

Brief Notes

The Christopher D. Smithers Foundation has recently published a revised edition of *Preventing Alcoholism* that focuses on primary prevention. While mental health professionals will not find the contents of this volume new in thought or suggestions, the public would find this small book very useful. At the price of \$2.95 per copy, *Preventing Alcoholism* is a good book, at a reasonable cost, to recommend to parents. It can be obtained by writing the foundation at Box 67, Mill Neck, New York, 11765.

In the spring of 1980 the World Foundation for Mental Health and the National Association for Mental Health organized a four-day European Workshop on *Alternatives to Mental Health Hospitals*. The proceedings of this conference have been published in a work with the same title. This volume would be of considerable interest to any mental health professional involved in prevention or interested in prevention activities in Europe. Copies may be ordered at \$10.00 each, by writing Nationale Vereniging Voor Geestelijke Gezondheidszorg, Kortrijksesteenweg 369-9000, Gent, Belgium.
