Erratum

M.D. Zaretsky, AZT toxicity and AIDS prophylaxis: is AZT beneficial for HIV+ asymptomatic persons with 500 or more T4 cells per cubic millimeter? *Genetica* 95: 91–101, 1995.

Owing to an error in the production process the above-mentioned article contains a lot of mistakes in the units of CD4+ cell counts. The units of CD4+ cell counts that appear throughout the article should be cells per cubic millimeter, as in the title of the article, abbreviated as cells/mm³.

We are sorry for the inconvenience to author and readers.
