Bethe-Salpeter Equation with Confining Kernel; Correct Non-Relativistic Limit and the Constant to be Added to the Linear Potential

Dieter Gromes

Z. Phys. C – Particles and Fields **11**, 147 (1981)

In (2.4) replace $2v$ by 2^v in the denominator on the right-hand side.

In the equation following (2.20) add $-(2\pi)^3 \lambda r_0 \delta^{(3)}(\mathbf{q})$ to the right-hand side.
