Errata

Searching for new heavy vector bosons in $p\bar{p}$ colliders

G. Altarelli, B. Mele, M. Ruiz-Altaba

Z. Phys. C – Particles and Fields 45, 109 (1989)

Unfortunately, in formulas (2.2), (2.3), (2.4) and (2.5) one factor was printed wrongly:
 $\cotg \theta_w$ should read $\cotg^2 \theta_w$.

A study of photon production in hadronic events from e^+e^- annihilation

JADE Collaboration

Z. Phys. C – Particles and Fields 46, 1 (1990)

The following typesetting error was noticed after the article had been published:

Table 4. Inclusive photon spectrum at $\sqrt{s}=35$ GeV.

The first number in column 3 $s d\sigma/dx$ should read 113.8 (instead of 138.8).
