Erratum

η_c As We Know It

M. A. Shifman

Institute of Theoretical and Experimental Physics, SU-117259 Moscow, USSR

Z. Physik C, Particles and Fields **4**, 345–353 (1980)

On p. 351, Eq. (34) should read:

$$\langle 0 | \bar{c} \gamma_\mu c | J/\psi \rangle = \gamma e_\mu^{(\psi)} m_{J/\psi}^2, \quad A(J/\psi \rightarrow \eta_c \gamma) = \kappa F_{\mu\nu} P_\alpha^{(\psi)} e_\beta^{(\psi)} \varepsilon_{\mu\nu\alpha\beta}, \quad (34)$$

On p. 352 in the left column, the equation should read:

$$\begin{aligned} \text{Im } f^{(\bar{c}c)}(m_{\eta_c}^2, 0, s) = & + \frac{4}{3} \alpha_s(m_c) [m_{J/\psi}^2 \gamma \kappa] (1/s v^3) \\ & \times \left[\frac{3}{2} \left(1 - \frac{1}{2v} \ln \frac{1+v}{1-v} \right) + \frac{v}{4} \ln \frac{1+v}{1-v} \right] \theta(s - s_{\text{cont. th.}}); \quad v = (1 - 4m_c^2/s)^{1/2}. \end{aligned}$$
