Erratum

Lifetime of Pair Excitations in Nuclear Fission

G. Schütte

Z. Physik A **288**, 161–166 (1978)

Formula (3.14) must read:

$$W = |c|^2 e^{-2\Gamma(t-t_1)} \frac{|d|^{2N} e^{2\Gamma(t-t_1)} - 1}{|d|^2 e^{2\Gamma\tau} - 1} + |d|^{2N}. \quad (3.14)$$

The interval τ is an average value of $t_{i+1} - t_i$.
