Erratum

The EMC effect and its Q^2 dependence from a quark-gluonic three-body correlation in nuclei, and J/ψ lepto-production from nuclear glue

Saul Barshay and Dieter Rein

Z. Phys. C – Particles and Fields 46 (1990) 215

Equation (24) should have read:

$$(\tilde{r})_{z=0.5} = \left(\frac{r(3, \vec{v}_>) r(1, \vec{v}_<)}{r(3, \vec{v}_<) r(1, \vec{v}_>)} \right)_{z=0.5} \cong 1.24. \quad (24)$$
