Rheol. Acta 15, 435 (1976)

Errata to Turbulent diffusion and drag reduction of drag reducing fluids

S. K. Bhowmick, C. Gebel, and H. Reitzer (Assam/India)

Rheol. Acta 14, 1026–1031 (1975)

The following corrections have to be introduced in the said paper:

1. p. 1027, left column, last line, substitute: "cone of diffusion" (for "zone of diffusion").
2. p. 1028, left column, insert after the sixth line: "... of polymer solutions and the flux of injection. The plot of fig. 4 of non-(dimensional pressure drop ...).
3. In fig. 5 and 6 the ordinates have to be designated by $\Delta t/t^*$ (in the place of $\Delta t/t$).
4. p. 1030, left column, insert after eq. [5]: At $y = \delta$, the edge of the boundary layer, the local velocity u becomes equal to U , the average velocity of flow.
