POSITIVE PARITY GIANT MULTIPOLE RESONANCES IN ^{16}O

M. GMITRO, E. TINKOVÁ, A. RIMINI, T. WEBER

Czech. J. Phys. B29 (1979) 155

In preparation of the manuscript eq. (B8) has been miscopied. It should read

$$\begin{aligned} \text{(B8)} \quad M_{12}(i, l) &= \langle ph \ JT, i \| \hat{F} \| (p'_1 p'_2) \ J'_P T'_P(h'_1 h'_2) \ J'_H T'_H; 00, l \rangle = \\ &= n(p'_1, p'_2) n(h'_1, h'_2) \delta_{J'_P J'_H} \delta_{T'_P T'_H} \hat{J}'_P \hat{T}'_P W(\tfrac{1}{2} T'_P T'_H; \tfrac{1}{2} \tfrac{1}{2}) (-)^{J_{p'_1} - J_{h'_1} + J + T} \times \\ &\times P(p'_1 p'_2 J'_P T'_P) P(h'_1 h'_2 J'_H T'_H) [-\delta_{p p'_2} \delta_{h h'_2} W(j_p J'_P J j_{h'_1}; j_{p'_1} j_h) \langle h'_1 \| F \| p'_1 \rangle] . \end{aligned}$$

Please note also a trivial misprint in eq. (B9): $\delta_{p_2 p'_2}$ should stand instead of $\delta_{p_1 p'_2}$.

Indeed all the results quoted in our paper correspond to the correct form of these equations.
