Inhibition of K1735-M2 melanoma cell invasion *in vitro* by retinoic acid

C. Helige, J. Smolle, G. Zellnig, E. Hartmann, R. Fink-Puches, H. Kerl
and H. A. Trittthart

On page 409, the third sentence of the abstract should read:

Retinoic acid (RA: 1 μ M) considerably impaired K1735-M2 melanoma cell invasion, as demonstrated by various measuring parameters.
