THE CORRECTION OF "ON THE MOTION OF FLYING
PLATE UNDER EXPLOSIVE ATTACK"

Chu Chao-hsiang (朱兆祥)
(Chinese University of Science
and Technology, Hefei)

Chu Chao-hsiang and Jiang Da-he, On the Motion of Flying Plate under Explosive Attack, Applied Mathematics and Mechanics, Vol. 1, No.3 (1980), pp. 293-304.

1. Eq.(2.2) should be as follows:

$$\rho_m h \frac{du}{dt} = p$$

2. Eq.(3.7) should be as follows:

$$\frac{du_1}{dt} + \frac{3\lambda^2 u_1}{\mu t^3} = \left(\mu + \frac{3}{2} - \frac{\mu}{\lambda} \right) \frac{3\lambda^2}{\mu t^3} + \left(\ln \frac{4\lambda}{3t} - 2 \right) \frac{2\lambda^2}{\mu t^3}$$

3. Eq.(3.9) should be in the following form:

$$\tau(t) = \frac{\lambda^3}{\mu} \left\{ \mu^2 + \frac{17\mu}{4} + \frac{19}{4} + \ln \frac{3}{4} - \left(1 + \frac{\mu}{2} \right)^2 \ln \lambda - \frac{11}{2} \left(1 + \frac{\mu}{2} \right) \frac{1}{t} + \left(\frac{3}{4} + \ln \frac{4\lambda}{3t} \right) \frac{1}{t^2} \right\}$$
