PRAEMIA

Prix Friedrich Miescher

A l'occasion du centième anniversaire de la découverte des acides nucléiques, la Société Suisse de Biochimie a créé un Prix Friedrich Miescher, octroyé par l'Institut Friedrich Miescher (Société Ciba-Geigy, Bâle).

Extrait des statuts: I. Le Prix Friedrich Miescher est décerné une fois par an à un jeune chercheur biochimiste pour une ou plusieurs contributions importantes, publiées ou en cours de publication, dans un domaine de la biochimie. II. Les candidats doivent

être âgés de 40 ans au maximum dans l'année de l'attribution du prix. Cependant, la préférence sera donnée aux candidats de moins de 35 ans. III. Les travaux soumis doivent avoir été effectués en Suisse ou par des Suisses à l'étranger.

Les candidatures doivent être adressées au Secrétaire de la Société Suisse de Biochimie (C. BRON, Institut de biochimie, chemin des Boveresses, CH-1066 Epalinges/Suisse) jusqu'au 1er janvier 1980.

CORRIGENDA

Cheriyen Thomas and R. S. Prasad: Chromosome variations in *Xenopsylla astia* Rothschild, 1911 (Siphonaptera). A preliminary report, *Experientia* 34, 1440 (1978). Figure 2, g, shows anaphase of 1st meiotic division from spermatocyte ($\times 1070$).

K. P. Skandhan, A. Skandhan and Y. B. Mehta: Semen electrolytes in normal and infertile subjects. II. Zinc, *Experientia* 34, 1476 (1978). In the figure and the table it should correctly read: $\mu\text{g}/100\text{ ml}$ instead of $\text{mg}/100\text{ ml}$.

L. Stankova, R. Bigley, Sonja R. Wyss and H. Aebi: Catalase and dehydroascorbate reductase in human polymorphonuclear leukocytes (PMN): Possible functional relationship, *Experientia* 35, 852 (1979). The correct name and the E.C. number on page 852 should read as follows: GSH-dehydroascorbate oxidoreductase (E.C. 1.8.5.1.) and not (E.C. 1.6.5.4.).

W. Uphoff, Anthocyanins in the flowers of European orchids, *Experientia* 35, 1013 (1979). In table 2 the optical properties of orchicyanin I and II have been exchanged. The correct values are:

	Colour	λ_{max} (nm)
Orchicyanin I	violet	526, (322), 350, 267
Orchicyanin II	red	513, (312), 367

The chromatographic values are correct.

Instructions to authors

Experientia is published on the 15th of every month and can be obtained in any country through booksellers or from the publishers. All communications to the editors should be addressed to the publishers. All manuscripts for publication in a given number must be in the hands of the editors 3 months before publication.

Articles of general scientific interest, of interdisciplinary character: briefly stated and hitherto unpublished original reports of sufficient novelty value.

Text should not exceed 2–3 typewritten pages (50–60 lines). 1–2 relevant figures or tables. English summary of maximum 4 lines. Abbreviations should be properly explained. References should be numbered consecutively and be presented on a separate page. Name and address have to be placed directly under the title. Linguistically inadequate manuscripts will be returned. Manuscripts in languages other than English should be supplemented by an English translation of the title. Footnotes should be avoided.

Figures Illustrations should be separate from the text, with the author's name on the back in soft pencil. The desired labelling should be shown on a second set of figures, which will be used as a model for inscriptions. Drawings for reproductions should be on good paper in Indian ink, photographs should be supplied as glossy positive prints. The illustrations should be at least one and a half times as

large as the definitive size desired. Over-large figures can be easily damaged in the mail. Captions should be selfexplanatory, without reference to the text.

Tables should be provided with a title and with selfexplanatory captions.

Headings In submitting their manuscript to *Experientia*, authors are requested to indicate one of the headings mentioned below, under which they would wish to place their short communication:

1. Mathematics and Physics; 2. Cosmology, Astronautics, Cosmonautics; 3. Mineralogy, Geophysics, Oceanography; 4. Inorganic and Physical Chemistry; 5. Organic Chemistry; 6. Biophysics; 7. Molecular Biology, Cellular Biology; 8. Genetics; 9. Botany; 10. Zoology; 11. Ecology; 12. Biochemistry (analytic and synthetic); 13. Biochemistry (Enzymes, Metabolism); 14. Physiology; 15. Neurology; 16. Pharmacology, Toxicology, Pathology; 17. Experimental Gerontology; 18. Anatomy, Histology, Cytology, Histochemistry; 19. Embryology; 20. Endocrinology; 21. Circulation, Cardiology, Angiology; 22. Nutrition, Gastroenterology; 23. Hematology, Serology; 24. Immunology, Allergy; 25. Microbiology, Parasitology, Chemical Therapeutics; 26. Oncology, Carcinology, Cytostatics; 27. Radiology.

Reprints The authors receive 50 reprints, without cover, free of charge. Price-list for further reprints is available.
