Erratum

Fungi of certain stored vegetable seeds in relation to pre- and post-emergence effects

by

AWATER S. SEKHON & T. N. SHIVAPURI, Department of Medical Bacteriology, University of Alberta, Edmonton 7, Alberta, Canada, and Directorate of Agriculture, Lucknow, Uttar Pradesh, India, respectively.

SEKHON, A. S., & T. N. SHIVAPURI (1971) Erratum: Fungi of certain stored vegetable seeds in relation to pre- and post-emergence effects. *Mycopathol. Mycol. Appl.* 43(2): 211—215.

On p. 212, in lines 11—14 under Materials and Methods, "These sterilized 5—10 seeds, depending upon their size, were plated on each petri plate containing either 2.5 % salt extract (MEA), 2 % potato-dextrose agar (PDA), and moistened filter paper medium" should read

"These sterilized 5—10 seeds, depending upon their size, were plated on each petri plate containing 2.5 % malt extract (MEA) or potato-dextrose agar (PDA) or moistened filter paper medium."
