Addendum

To the article *Pairs of edge disjoint Hamiltonian circuits in 5-connected planar graphs*, Aequationes Mathematicae 38 (1989), 50–55:

Other constructions of pairs of edge disjoint Hamiltonian circuits were first obtained by J. Zaks, *Pairs of Hamiltonian circuits in 5-connected planar graphs*, J. Comb. Theory Ser. B 21 (1976), 116–131. More examples were also constructed by P. J. Owen, J. Comb. Theory Ser. B 28 (1980), 262–277.
