CORRIGENDUM

Hidegori Sassa · Takeshi Nishio · Yasuo Kowyama
Hisashi Hirano · Takato Koba · Hiroshi Ikehashi

Self-incompatibility (S) alleles of the Rosaceae encode members of a distinct class of the T₂/S ribonuclease superfamily

in Mol Gen Genet (1996) 250:547–557

Unfortunately, the nucleotide sequence of “primer 7” in the subsection “PCR cloning of genomic fragments of S-RNases” was given as 5′ ACGGGGATGATATATRTGGTTA-3′. It should be 5′ TGGTTAYKATGGTAT-TTTCATTAAT-3′.
