N. T. Denisov, A. E. Shilov, N. I. Shuvalova and T. P. Panova: Mechanism of electron transfer in dinitrogen fixation in the system Ti(III) - Mo(III)
Vol. 2, No. 3, 237 (1975)

The sentence beginning in line 12, p. 238, should read:

Besides, at 120-130^o C in the absence of N₂, the oxidation of Ti(III) by water takes 2-3 min, whereas in N₂ atmosphere the accumulation of N₂H₄ requires 30-40 min and the oxidation of Ti(III) is even slower.
