ERRATA TO OPTIMAL SCALING OF PAIRED COMPARISON AND RANK ORDER DATA: AN ALTERNATIVE TO GUTTMAN'S FORMULATION

SHIZUHIKO NISHISATO
 THE ONTARIO INSTITUTE FOR STUDIES IN EDUCATION

Two formulas in Nishisato [1978] were erroneous. The correct versions of them are as follows:

	<i>Errors are</i>	<i>Should be</i>
Formula (9), p. 265	$SS_t = 2N\mathbf{x}'\mathbf{x}$	$SS_t = N(n-1)\mathbf{x}'\mathbf{x}$
Formula (10), p. 266	$SS_b = \left[\frac{2}{n(n-1)^2} \right] \mathbf{x}'E'E\mathbf{x}$	$SS_b = \left[\frac{1}{n(n-1)} \right] \mathbf{x}'E'E\mathbf{x}$

The other formulas and the discussion are correct.
