ERRATA

In the article by N. N. Balanukhin and B. P. Markin (No. 3, 1982), the authors confess to a certain lack of clarity. On p. 111, the line after Eq. (2) should read: " γ is the bulk weight."

Also, on p. 112 Fig. 2 should be rotated counterclockwise by 90° so that the force P points vertically down.
