Comparative Physiological Pharmacokinetics of Fenatyl and Alfentanil in Rats and Humans Based on Parametric Single-Tissue Models

Sven Bjorkman, D. Russell Wada, Donald R. Stanski, and William F. Ebling

This footnote to Table II was originally to appear in *Journal of Pharmacokinetics and Biopharmaceutics*, Vol. 22, No. 5, on page 387.

^aThe *C.V.* (%) of the fitted value is given within parenthesis. In the whole-body models, the carcass was characterized using the parameters for skin. See Glossary for explanation of the parameters.
