Erratum

Exon duplication and triplication in the human T-cell receptor gamma constant region genes and RFLP in French, Lebanese, Tunisian, and Black African populations

C. Buresi, N. Ghanem, S. Huck, G. Lefranc, and M.-P. Lefranc

Immunogenetics 29: 161–172, 1989

The T-cell receptor gamma variable, joining and constant genes, and their corresponding alleles should have been designated throughout the publication as they appear on pages 161 and 163.
