On page 1460 eq. (10) should read

$$\frac{h_{MT}}{h_{LT}} = \frac{(\partial Q_{MT}/\partial t)_{\max}}{(\partial Q_{LT}/\partial t)_{\max}} \cong \frac{\eta_{MT}}{\eta_{LT}} \frac{(\partial \alpha_{MT}/\partial T)_{\max}}{(\partial \alpha_{LT}/\partial T)_{\max}} \cong 18,$$

i.e. the equal sign after the η_{MT}/η_{LT} term should be omitted.
