PACS 52.55 – Plasma equilibrium and confinement.

PACS 99.10 – Errata.

In fig. 2a) the vertical scale should be «electron temperature (K)», instead of «ion temperature (K)», in fig. 2b) the vertical scale should be «radiation temperature (K)», instead of «density (g/cm^3)».

In fig. 3a) the vertical scale should be «ion temperature (K)», instead of «electron temperature». In the caption to fig. 3a) «electronic temperature» should be «ion temperature».

Furthermore, fig. 4 and fig. 6 have been exchanged.
