ERRATUM

A printing error was made in the article "Flow Cytometric DNA Analysis of Neuroblastoma" by H. Suzuki and K. Takeuchi (Japanese Journal of Surgery 1988; 18(1): pp 116–118). The last sentence of page 117 should read "They also found that aneuploidy of tumor cells was associated with favorable clinical staging (stage I, II and IV—S) and favorable histologic", instead of "They also found that aneuploidy of tumor cells was" in the printed page.
