ERRATUM

To the paper by John Z. Hearon entitled "Comments on the Approximate Solution of the Diffusion Equation: I." (Vol. 15, pp. 23-31).

In the above paper, equation (16) on page 27 should read

$$C(0) = C^0 + \frac{1}{hr_0^2} \int_0^{r_0} r^2 Q dr + \frac{b}{r_0} + \frac{1}{D_i r_0} G(r_0) ,$$

and equation (21) on page 28 should read

$$\bar{C} = C^0 + \left(\frac{r_0}{3h} + \frac{r_0^2}{3D_e} + \frac{r_0^2}{6D_i} \right) \bar{Q} - \frac{1}{6D_i} (\overline{r^2 Q}) .$$
