CORRECTIONS TO "QUADRATIC FORMS OF A MATRIC- t VARIATE"

D. G. MARX

(this Annals Vol. 35, No. 3, A (1983), pp. 347-353)

1. On page 348, line 11, delete

"In Section 4 we generalize one well-known identity of James [5]"

2. On page 349, line 2 of equation (3.1) should read

$$\sum_{k=0}^{\infty} \Sigma_c \frac{1}{(p/2)_k k!} |R|^{(p-m-1)/2} E_s \left[P_c \left(\frac{-1}{\sqrt{2n}} L, \right. \right.$$

3. On page 350, line 1 of equation (3.2) should read

$$(3.2) \quad f_A(A) = \frac{\Gamma_p((m+n)/2) \pi^{m^2/2} \alpha_m(A)}{\Gamma_m(p/2) \Gamma_p(n/2) \Gamma_m(m/2)} |n \Sigma_1|^{-m/2} |\Sigma_2|^{-p/2} |\Sigma|^{-n/2} |\Sigma_s|^{(m+n)/2}$$

4. On page 351, line 1 of equation (3.7) should read

$$(3.7) \quad F_{\lambda_1}(\lambda_1) = \frac{\Gamma_p((m+n)/2) \Gamma_m((m+1)/2)}{\Gamma_p(n/2) \Gamma_m((p+m+1)/2)} |n \Sigma_1 \Sigma^{-1}|^{-m/2} |\Sigma_2|^{-p/2} \lambda_1^{mp/2}$$
