ERRATUM

To the paper by H. G. Landau and A. Rapoport entitled "Contribution to the Mathematical Theory of Contagion and Spread of Information: I. Spread through a Thoroughly Mixed Population" (Vol. 15, pp. 173-83).

In the above paper, equation (29) on page 179 should read

$$1 - z = (1 - z_0) \exp \left[- A \int_0^t z(t - \lambda) p(\lambda) d\lambda \right]. \quad (29)$$
