PACS 96.40.Cd – Interplanetary propagation and effects.

PACS 99.10 – Errata.

Unfortunately, a misprint has crept on p. 115 of this paper. On line 25 and 26 please read:

$dA_{NS}/dt > 0$ for positive streams and $dA_{NS}/dt < 0$ for the negative ones,

instead of

$dA_{NS}/dt < 0$ for positive streams and $dA_{NS}/dt > 0$ for the negative ones.
