Opioids in chronic pain therapy

In the last issue of "Der Schmerz" I. Jurna has presented a paper on "Opioids in chronic pain therapy" (*Der Schmerz* (1996) 10: 211–214). By mistake the following paragraph was omitted:

Results of a Sertuerner Workshop held on May, 4.–6. 1995 in Castrop-Rauxel Sertuerner Society Einbeck

The Sertuerner Society organises 2 workshops every year on actual topics from the field of pain and anaesthesia. The 1995 spring-conference was headed "Opioids in chronic pain therapy". 30 colleagues from german speaking countries discussed a number of aspects

of opioid therapy from neurobiology to clinical practice and concluded to a consensus paper. The results of this Sertuerner Workshop have been presented in german elsewhere [1]. The following english abstracts have been written and collected to further distribute the results obtained also for our english speaking colleagues.
