Addenda

Whereas the JPE editorial and production staff make every effort to preserve the integrity of each author's work, the occasional error occurs. In Vol. 17, No. 2, p. 120 of "Partial Phase Diagram of the Ti-Al Binary System" by J.J. Ding, G.W. Qin, S.M. Hao, X.T. Wang and G.L. Chen, the captions for Fig. 3 and 4 were inadvertently reversed. The captions and figures are shown correctly below. The entire staff extends sincere apologies to the authors.

Fig. 3 Partial Ti-Al binary phase diagram. Solid line is this work. Dashed line is [89Mcc].

1150 °C

1300 °C

Fig. 4 Optical photomicrographs of Ti-48Al treated at 1150 and 1300 °C.
