Correction to *Met. Trans. A*, 1977, vol. 8A

Characterization of the Solidification Structures Within the Dendritic Core of M2 High Speed Steel, by James McLaughlin, R. Wayne Kraft, and Joseph I. Goldstein

Page 1787, Column 1, Item 3)* should read

3)* MC type carbides begin to precipitate from the liquid at about 1262°C, $L \rightarrow MC$.

The following phrase should be added as the last line of the text in Column 1:

“austenite and M_6C carbides by a eutectoid reaction.”
