CORRIGENDUM

On the Burnside Problem for Semigroups of Matrices in the $(\max, +)$ Algebra

S. Gaubert

Communicated by J.-E. Pin

The version of this paper that was published in Semigroup Forum [1] contained errors in internal references within the article that were caused by incorrectly processing the final version of the $\text{\LaTeX}$ source file for the paper. While the errors are not serious enough to warrant reprinting the paper, we have placed a corrected version on the Semigroup Forum home page, and interested readers may download a copy using either anonymous ftp or using a Web browser. The paper can be retrieved by anonymous ftp to the machine 129.81.96.30 and pulling off the file `gaubert.ps`, which is in the directory `pub/forum/corrigenda`. Alternatively, the URL for the Forum home page is <http://www.math.tulane.edu/SF.html>, and the paper can be located by following the link under "Corrigenda." The mistakes were the fault of the Journal Secretary, who regrets the error.
