**Photoproduction of π^- -Meson on Deuteron
by Monochromatic Photons in the First Resonance Region.**

J. BOUCROT, D. BLUM, B. GROSSETÊTE, W. MCGILL and H. NGUYEN NGOC

Université Paris-Sud, Laboratoire de l'Accélérateur Linéaire - Orsay

(*Nuovo Cimento*, **18 A**, 635 (1973))

Please note the following misprint in the above-mentioned paper:

page 635: In the title « by » was omitted;

page 644: line 3 (from the bottom): Fig. 7 should read Fig. 8;

page 645: lines 3 and 5: small p instead of capital P ;

page 648: line 2: Fig. 9 should read Fig. 10;

caption of Fig. 9a, last line should read 307 instead of 370;

page 651: caption of Fig. 9d: line 2: isotensor instead of isovector;

line 2: read Fig. 9 instead of Fig. 10;

line 5: ditto.
