ERRATUM

In the article, "A New Interpretation of the Social Organization and Mating System of the Callitrichidae," by R. W. Sussman and P. A. Garber (*International Journal of Primatology*, Volume 8, Number 1, February 1987, pp. 73-92), the sentence beginning on line 42 of p. 88 and ending on line 3 of p. 89 stands in need of correction. The sentence should read as follows:

In the absence of information on the relatedness of group members in the wild, and with present evidence indicating that in all species studied immigration and emigration are a common pattern, we feel that the mating system proposed in this paper better explains the data presently available than does a monogamous or extended-family-based social unit.
