Radiative Transfer for Polarized Radiation: Symmetry Properties and Geometrical Interpretation.

E. LANDI DEGL'INNOCENTI and M. LANDI DEGL'INNOCENTI

Osservatorio Astrofisico di Arcetri - Largo E. Fermi 5, 50125 Firenze, Italia

(*Nuovo Cimento B*, **62**, 1 (1981))

— pag. 3

In formula (2.1)

$$V = I_f - I_a$$

must be replaced by

$$V = I_f - I_g.$$

— pag. 4

(2.4) is missing in the l.h.s. margin of the last but one formula.

— pag. 10

In the 17th line of sect. 4, P_L should be substituted by p_L .

— pag. 13

Equation (4.6) should read

$$\frac{dI}{ds} = - \left[\eta_I \left(1 - \frac{B_\nu(T)}{I} \right) + \boldsymbol{\eta} \cdot \boldsymbol{p} \right] I$$

instead of

$$\frac{dI}{ds} = [\eta_I(1 - B_\nu(T)) + \boldsymbol{\eta} \cdot \boldsymbol{p}] I.$$

— pag. 13

In eq. (4.8) the equality

$$e'_z = e_z$$

should read

$$e'_z = -e_z.$$
