A Possible Structure for C -Violating Electromagnetic Interactions.

P. ROMAN and S. K. YUN

*Department of Physics, Boston University - Boston, Mass.**(Nuovo Cimento, 48 A, 454 (1967))*

In consequence of inadvertent use of C. G. coefficient tables a regrettable error occurred in our paper. The right-hand sides of eqs. (26) and (28) are not zero, hence the reactions

$$N^{*+} \rightarrow p + \gamma$$

$$Y_1^{*+} \rightarrow \Sigma^+ + \gamma$$

are *not* forbidden. They should be listed together with the other two processes in eq. (35), and the second sentence of footnote (13) should be deleted. Of course, this correction does not affect the rest of the paper.

We are obliged to Prof. G. BECKMANN of the University of Mainz, Germany, for having made us aware of the error.
