Errata

In the article, "Infection of Aerial Parts of Potato Plants by *Colletotrichum cocodes* and Its Effects on Premature Vine Death and Yield," published in Vol. 69, No. 9, pp. 547–559, there were some errors.

On page 547 the abstract ends on line 22 ". . . as a potato pathogen than hitherto documented." Following the abstract should be the **Compendio** printed on page 548.

The **Introduction** to this article starts on page 547 on line 23 "*Colletotrichum coccodes* (Wallr.) . . ." and should include the statement found on page 549—"Portions of this study were reported previously (9, 15, 16).

After this, proceed to **Materials and Methods** on page 549.

ERRATA

In Volume 69, Number 11 of the *American Potato Journal* there are three errors in the article by Westermann and Davis, pages 756, 763 and 765.

The caption on Figure One, which should be Figure 3, should read "Factors affecting the management strategy of agricultural systems" (adapted from Cole et al., 1989).

The caption on Figure 2, which should be Figure 1, should read "Effects of soil C content on corn yield potential in Michigan" (Lucas et al., 1971).

The caption on Figure 3, which should be Figure 2, should read "Depiction of an interactive crop management system."

Our apologies for these errors.
