"The ORTHO program this year helped me increase my yields by an average of 20 bags (potatoes) per acre,"

states Mr. Guy Lockerman, owner and manager, Sunset View Farms, Middletown, Delaware.

ORTHO offers a crop protection program tailor-made for your area. Your ORTHO Fieldman knows the particular problems of your area. When you buy the ORTHO program you get the benefit of this technical field service, a half century of research, and all the scientific know-how that have made ORTHO America's number one line of agricultural chemicals.

ERRATA — MARCH 1959 ISSUE

With reference to the article by Folsom and Friedman, "Pseudomonas fluorescens in relation to certain diseases of potato tubers in Maine," the following corrections should be made:

- p. 90 line 8 spelling should be stolon —
- p. 90 line 13 substitute practically for particularly —
- p. 91 insert under figures 1-10. Figure 4—Discolored xylem in tangential section of tuber.
- p. 96 line 3 should read *P. xanthochlora* (Schuster) —
- p. 97 reference 11 volume and number should read 3 (1)
- p. 97 reference 24, pages should read 592-532.
