Announcements

Fifth Forum of International Andrology

The 5th Forum of International Andrology will be held July 6–8, 1987, at the Intercontinental Hotel, 3 rue de Castiglione, 75001 Paris, France. Round table discussions will be held on male impotence and puberty and andropause; there will also be workshops on tumors of the testis, penile curvatures, urethritis, and artificial fecundation. At your request you can receive the final program in May 1987. *For further information please contact:* PR. G. Arvis, Department of Andrology-Urology, Hopital Saint-Antoine, 185 rue du Faubourg Saint-Antoine, F-75012 Paris, France.

Ninth International Radiology Congress; “Radiology in Yorkshire”

“Radiology in Yorkshire” will be held September 13–20, 1987, at Harrogate, Yorkshire, England. It is sponsored by the University of Connecticut, Bradford Royal Infirmary, England. Topics include interventional radiology; ultrasound of the abdomen; magnetic resonance imaging of the head, spine, and body; obstetrical and neonatal ultrasound; oncological radiology; CT of the chest and abdomen; and mammography. *For further information contact:* D. Beatty Crawford, MD, Department of Radiology, University of Connecticut Health Center, Farmington, CT 06032. Phone: (203)674-3322.

Parametric Imaging Applied to Renal Digital Subtraction Angiography: Establishment of Normal Ranges, by Jill V. Hunter

Figure 2B (page 206) was inadvertently printed as a duplicate of Figure 2C. Below is the correct arrangement for Figures 2A–C:

Fig. 2. Case 1. A normal bilateral study. **A** Early arterial phase. **B** Later venous phase. **C** Max parametric image.
