COMPARISON OF VENTILATION RESPONSES TO HYPERCAPNIA AT NORMOTHEMIA AND HYPOTHERMIA DURING HALOTHANE ANAESTHESIA

JOSEPH O. SODIPO, F.F.A.R.C.S. (ENG.)
AND DOCHIL, LEE, M.D.

Vol. 18, Pages 426-433 (July 1971)

The first paragraph page 431 should read:

"The probable explanation for this disparity may be related to recent observations of Mitchell and his co-workers¹³ who have located paired areas sensitive to H⁺-ion on the ventrolateral aspect of medulla of the cat."
