CLASSICAL THEORY OF SPINNING PARTICLES: ERRATA

BY H. J. BHABHA, PH.D.

(Vol XI, No. 4, April 1940, Section A, pp. 247-267)

The following misprints have occurred :—

The third equation of (3) is $S_{\mu}''' = \ddot{S}_{\mu\nu} v^{\nu}$.

The third term of (33) is $g_2 v^{\mu} \dot{S}_{\mu\sigma} F_{\sigma\nu}^{\text{in}} v^{\nu}$. There should be no dot over F. In the second line from the bottom on p. 254 *read* (29) instead of (28).

The last term of (47) is $F_{\mu\nu}^{\text{in}} v^{\nu} v_{\sigma}$ not $F_{\mu\nu}^{\text{in}} v^{\nu} v_{\mu}$.

In line 19, p. 258 *read* $\dot{S}_{\mu\nu}$ instead of $\ddot{S}_{\mu\nu}$.

The last term of (49) should be $d (S' \ddot{S} \dot{v})$ not $d (S' \dot{S} \dot{v})$.

In the third line of the new section on p. 259 *read* $M \dot{v}_{\mu}$ instead of $M v_{\mu}$. The sentence after (52) should end " of magnitude H_0 ."

The thirteenth term of (6b) is $c_{13} S_{\mu\nu} \ddot{S}^{\nu\rho} \dot{v}_{\rho}$.

The fifth term of the table on p 264 should be $v_{\lambda} \dot{S}_{\mu\nu} S''^{\nu}$ instead of $\dot{v}_{\lambda} \dot{S}_{\mu\nu} S''^{\nu}$.

In the third line on p. 265 *read* " third " instead of " last ".

In the expression for T_{μ}^{self} on p. 266 the second term in the second line from the bottom should be $(d + \frac{2}{15}) S_{\mu\nu} \dot{S}^{\nu\rho} \ddot{v}_{\rho}$ instead of $(d + \frac{2}{15}) S_{\mu\nu} \dot{S}^{\nu\rho} \ddot{v}_{\rho}$
