There are some printing errors in Eqs. (6—7) on page 289, in Eqs. (11) and (16) on page 290, and in Eq. (17) on page 291. Consequently, these equations should read:

$$\bar{F}''' + A B \bar{F} \bar{F}'' = \bar{S} \bar{G} \bar{G}'', \quad (6)$$

$$\lambda \bar{G}''' + A B (\bar{F} \bar{G}'' - \bar{F}'' \bar{G}) = 0, \quad (7)$$

$$\bar{F}''(0) = 1, \quad \bar{G}''(0) = 1, \quad (11)$$

$$A = [\bar{F}'(\infty)]^{1/2}, \quad B = \frac{1}{[\bar{F}'(\infty)]^{1/2}},$$

$$C = \frac{[\bar{F}'(\infty)]^{1/2}}{\bar{G}'(\infty)}, \quad S = \bar{S} \left[\frac{\bar{G}'(\infty)}{\bar{F}'(\infty)} \right]^2. \quad (16)$$

$$C_f = \frac{2^{3/2} F''(0)}{R^{1/2}} = 2^{3/2} \frac{(B/A^2)}{R^{1/2}}, \quad (17)$$
