ERRATUM in Doc. IIW-2201

“STRESS ANALYSIS AND FATIGUE OF WELDED STRUCTURES”

By A. Chattopadhyay, G. Glinka, M. El-Zein, J. Qian and R. Formas

Published in *Welding in the World*, Volume 55, no. 07/08, pp. 2-21

Equations (2) and (3)

$$\sigma_{hs}^m = \frac{\int_0^t \sigma(x, y=0) dx}{t} \quad (2)$$

$$\sigma_{hs}^b = \frac{6 \cdot \int_0^t \sigma(x, y=0) x dx}{t^2} \quad (3)$$

should be changed to:

$$\sigma_{hs}^m = \frac{\int_0^t \sigma(x, y=0) dx}{t} \quad (2)$$

$$\sigma_{hs}^b = \frac{6 \cdot \int_0^t \sigma(x, y=0) \left(\frac{t}{2} - x \right) dx}{t^2} \quad (3)$$
