ERRATUM TO: [JHEP02\(2011\)049](#)

- In (2.4), the coefficient $(3/16)$ for the term with $\hat{R}^{ij}(\mathcal{V})$ should be $(-3/8)$.
- In (2.7), second line, the second term should have a $-$ rather than $+$.
- In (2.8), second line, the TT term should have $-1/8$ rather than $+1/8$.
- In (2.11), first line, the first term should be $e^{-1}\partial_\mu(e^{\mu b}e)$.
- In (2.13), replace three times $\hat{\mathcal{D}}$ with $\mathcal{D}$, and the same replacement once in (2.14), (2.23), (3.8) and in footnote 6.
- Replace (2.25) with

$$E_a = \frac{1}{24}e^{-1}e_{\mu a}\varepsilon^{\mu\nu\rho\sigma\lambda\tau}\mathcal{D}_\nu E_{\rho\sigma\lambda\tau}.$$

- In (2.27): replace $-\frac{1}{2}i$ with $\frac{1}{2}$.
- Between (3.11) and (3.12) replace $\partial_\mu\mathcal{D}^\mu L^{ij}$ with $e^{-1}\partial_\mu(e\mathcal{D}^\mu L^{ij})$, and the same in (3.12).
- Similar in (3.25) and (3.28): replace $\partial^\mu\hat{D}_\mu\sigma$ with $e^{-1}\partial_\mu(e\hat{D}^\mu\sigma)$.
- Replace (3.31) with

$$\begin{aligned} e^{-1}\mathcal{L}_{\text{ferm}} = & -\frac{1}{2}\bar{\psi}_\rho\gamma^{\mu\nu\rho}\nabla_\mu\psi_\nu - 2\sigma^{-2}\bar{\psi}\not{D}\psi + \sigma^{-2}\bar{\psi}\gamma^\nu\gamma^\mu\psi_\nu\partial_\mu\sigma \\ & + \frac{1}{16}\sigma^{-1}\bar{\psi}_\mu\gamma^{\mu\nu\rho\sigma\chi}\psi_\nu\partial_\rho B_{\sigma\chi} - \frac{3}{8}\sigma^{-1}\bar{\psi}^\mu\gamma^\nu\psi^\rho\partial_{[\mu}B_{\nu\rho]} \\ & + \frac{1}{4}\sigma^{-2}\bar{\psi}_\mu\gamma^{\mu\rho\sigma\chi}\psi\partial_\rho B_{\sigma\chi} - \frac{3}{4}\sigma^{-2}\bar{\psi}^\mu\gamma^{\nu\rho}\psi\partial_{[\mu}B_{\nu\rho]} \\ & + \frac{1}{4}\sigma^{-3}\bar{\psi}\gamma^{\mu\nu\rho}\psi\partial_\mu B_{\nu\rho} + \left(4 - \text{fermion terms}\right). \end{aligned}$$
