To the Editorial Board of *Neurophysiology/Neirofiziologiya* from the co-authors of the paper by D. E. Duzhyi et al. “Distribution of NOS-Containing Neurons in Different Regions of the Solitary Complex in Normo- and Hypertensive Rats” (Vol. 33, No. 4, pp. 229-234, 2001).

Through our fault, calibrations on two fragments of Fig. 1 of the above paper are incorrect. Scales for fragments G and H should read 100 and 50 μm , respectively.

D. E. Duzhyi, V. A. Maiskii, and A. I. Pilyavskii.
