In the journal version of the special issue “Q of the Earth: Global, Regional, and Laboratory Studies” edited by Barbara Romanowicz and Brian J. Mitchell, but not in its reprint as a book, page 594 of the above mentioned article by mistake presents two figures, termed Figs. 3 and 4, for the situation in Australia together with two legends for Figs. 5 and 6, which refer to the situation in South America. The correct figures for South America are as follows:
