JEAN-PIERRE SERRE

Collège de France
75005 Paris

p. 677, in statement (5.5.20), the words “*est lisse, mais*” should be deleted: it is clear that the morphism φ' is not smooth. Similarly, in the proof of (5.5.20), the last sentence “*La lissité de φ' se vérifie par un calcul explicite*” should be deleted.

These corrections have no influence on the rest of the paper.
